# Notebook Cover

Step 1

- Iron bondaweb onto your chosen coloured fabric.
- Draw a design on the paper side
- Cut these shapes out

Step 2

- Place your cut out shapes onto your book cover
- Make sure you are happy with your layout and design

Step 3

- Peel the backing paper off your bondaweb shapes
- Lay them back into place
- Carefully iron them into place.

Step 4

- Select the thread you would like to use
- Sew over the design on your book cover
- Do this using straight stitch or any of the machines pre-programmed stitches

Step 5

- Fold over and press along the first pencil line
- Stitch this down
- Fold over and press along the second pencil line to create your flap
- Sew along the top and bottom edges of your book cover to secure the flaps

Step 6

- Using pinking shears (zig zag scissors) cut along the whole outer edge of your book cover.
- Or, if you prefer, sew along the whole outside edge of your book cover using a decorative stitch

Step 7

Fold your book cover in half
- Insert your book

Enjoy your finished product!
